PRODUCT OFFERING

REVOLUTIONIZING PATIENT SAFETY™

R² RAPID REFRESH™ PRIVACY CURTAINS

An isolation patient has just been discharged and a terminal cleaning ordered. All of the hard surfaces are disinfected, but what about the curtains? Hospital curtains are a potential source for dissemination of healthcare-associated pathogens. A recent study showed that 42% of hospital privacy curtains were contaminated with VRE, MRSA, or C-Diff.¹ Yet changing them could take a housekeeper an hour while a patient waits in the ER for a bed – and spores on the soiled curtains could be dislodged during exchange and transport for laundering, defeating the purpose and spreading infection housewide.²

Designed to minimize changeover time, ICP's patent pending R² Rapid Refresh Privacy Curtains can be exchanged in only seconds. Plus, the R² Rapid Refresh Installation Kit adapts to existing tracks without any special tools.

- Full 5.5' x 9' panel for complete privacy
- Rapid installation and curtain exchange
- Fire-retardant
- Recyclable

ICP-6100 R² Rapid Refresh Privacy Curtain

ICP-6000 R² Rapid Refresh Installation Kit

1 Infection Control and Hospital Epidemiology November 2008, Vol. 29, No 11; 1074-1076

2 C. difficile spores can survive desiccation for months and are resistant to conventional disinfectants. Environmental contamination occurs in 34% to 58% of sites in hospitals, even after detergent cleaning. Fordtran, M.D., Baylor University Medical Proceedings 2006. National Clostridium difficile Standards Group. Report to the Department of Health. J Hosp Infect. 2004.

PERSONAL PROTECTION COMFORT GOWNS

Simplicity. One generous size fits most employees. A unique pre-fold maximizes supply and minimizes restocking expense.

Protection. Created in one piece with thermal impulse seals, ICP gowns eliminate the possibility of seam leakage. Elastic wrists and thumb loops ensure complete wrist coverage under exam gloves.

Comfort. Made from either breathable or poly-coated materials, ICP gowns include an open back for heat release and a patented under arm design for reduced pressure and non-tear gowning.

Convenience. Our patented design includes neck loops that aid in rapid donning and a breakaway feature that minimizes aerosolization.

RAPID RELEASE DESIGN

Description	Open-Back Gown	Full-Coverage Gown
SMS Comfort Gown. Yellow. Light Weight.	ICP-8650	ICP-8650FC

◀ COMFORT SCRUBS

Comfort Scrubs are a fresh alternative to laundered scrubs. The breathable fabric offers supreme comfort and the triple layer fluid-resistance maximizes protection. Whether as an alternative to laundered scrubs or as an emergency back-up supply, consider Comfort Scrubs for those inevitable occasions when theft/shrinkage, excess wear, or a surge depletes conventional inventory.

- Breathable
- Fluid-resistant, 3-layer SMS fabric

ICP-9050JKT	Comfort Scrub Jacket	XL	50 / Case

FOAM DISPENSER

This patent pending foam dispenser system enables you to clean and protect hands while also protecting walls and floors from damaging drips and splashes. The dispenser can be used with or without the Drip Tray.

ICP3999EA Combination Dispenser and Drip Tray

◀ HAND SANITIZER

ICP's Foamed Alcohol hand sanitizer promotes compliance with the CDC Hand Hygiene Guidelines. Contains a superior emollient system to moisturize and prevent skin from drying and cracking while helping protect against bacterial infection. Soothing moisturizing ingredients leave hands feeling soft, not sticky.

- Triple the uses per container compared to gel products
- 62% Ethyl Alcohol
- Fragrance-free

ICP-3015ALC 1.5oz Foamed Alcohol, 48/case

ICP-3050ALC 16oz Foamed Alcohol, 12/case

◀ STRETCHER SHEETS

These disposable fluid-resistant, fitted sheets provide all-important mattress protection from patient secretions and body fluids. Their soft-touch fabric is incredibly comfortable for patients. Convenient, easy to change and sized to fit most gurneys, these fitted sheets can save valuable nursing time.

- Ultra-Protective
- Minimizes risk of Cross-Contamination
- Reduces Laundry/Linen Costs
- Latex free
- Fluid-Repellant SPP Fabric
- Elastic Ends with Deep Corner Pockets
- Tear-Resistant
- Great backup for Laundered Sheets

Material: SPP
Weight: 50g
Size: 85" x 37"
Color: White
Packaging: 10 pcs/bag, 100 pcs/case

ICP-9001GUR

TRIPLE PROTECTION BODY BAGS ▶

One piece, leak-resistant bag with sealing flap and fluid-absorbent liner ensures containment of corpse fluids and protection from biohazards.

- Fluid repellent SPP fabric offers triple protection from leakage
- Liner and sealing flap ensures fluid containment
- Puncture and tear-resistant heavy gauge polyethylene
- Biohazard labeling

ICP-1000LF 43"x 92" (Holds up to 400 pounds)

ICP-1000SAM 18"x36"

Leak-Resistant Cadaver Containment System

Packaging: 10/case

TOILET PAPER HOLDER FOR COMMODES ►

Our toilet paper holder attaches easily to most commodes, eliminating the need to place toilet paper on night stands, tables and other flat surfaces.

The unique, disposable design assures toilet paper is easily accessible for patient use and minimizes cross contamination in patient areas.

ICP-425 Packaging: 50 per case

◀ FANNY WIPES™

The #1 Solution for #2 Clean-ups™

- 5 strong, 10"x10" cloths/pk
- Zippered pouch for easy disposal and odor control
- Rinse-free, hypoallergenic, pH balanced formula
- Aloe Vera and Allantoin enriched to condition and sooth skin

ICP-095200A Fanny Wipes™ Incontinence Wipes, 48/case

COMPLETEBATH™ BODY BATHING ►

Single-use pouch minimizes the opportunity for cross contamination; no rinse formula eliminates rinsing and drying time, cutting bathing time in half. Convenient pouch can be used at room temperature or warmed for added comfort.

- 8 soft disposable cloths/pk
- Pre-moistened with a gentle, no-rinse hydrating cleanser
- Resealable label keeps unused cloths warm
- Aloe Vera and Allantoin enriched to moisturize, condition and sooth skin
- Alcohol free

ICP-095100A CompleteBath™ Bathing Wipes, 24/case

LOCK BOX SINGLE

PERSONAL PROTECTION EQUIPMENT (PPE) ORGANIZERS

Clear. The crystal clear acrylic means enhanced compliance: clinicians can find the exact protection they need instantly. It also means checking and replenishing stock is quicker and easier.

Durable. This high-grade acrylic will withstand years of harsh treatment and thousands of trips to Central Supply for restocking. The material is so strong that ICP stands behind every organizer with a lifetime limited Warranty.*

Customizable. Our patented organizers are fully customizable to hold exactly what you want, where you want it. They can be fitted with sign clips, coat hooks, parts boxes or other brackets to hold anything you need in addition to the standard glove, gown, mask and eye protection dispensers. Every unit is adjustable for inevitable product or manufacturer changes and they can be mounted on walls, doors, glass or hung over doors. The options are endless and our Compliance Consultants are trained to help you determine the optimal configuration and location for each organizer.

Convenient. Revolutionary restocking ease! Instead of bringing the supplies to each location, these are removable for transport to a Central Supply location to be refilled.

- ICP-2000** Single Column PPE Organizer
- ICP-2050** Double Column PPE Organizer
- ICP-2075** Triple Column PPE Organizer
- ICP-2050R** Respiratory Hygiene Station
