A durable, non-leaching Antimicrobial (AEM 5700) coating protects treated surfaces by inhibiting the growth of stain and odor-causing bacteria, mold, mildew and fungi. The antimicrobial coating repels these microorganisms without leaching into the environment. Curtains are also available without this antimicrobial coating.

Armor Protection: Synpela is a silane-based technology that will protect the fabric from bodily fluids, betadine, blood, ink, and oil.

Fluid & Stain Guard: The fabric is multi-coated with Aqueous-based microporous polymers. It can be wiped clean with hospital approved cleaners/disinfectants.

Flame Retardancy: Complies with NFPA 701 Small scale & California Title 19 after seven (7) commercial launderings.

Size: 108" (w) X 66" (h), panels easily snap together for complete coverage and privacy

Material: 100% Polyester, not made with natural rubber latex.

Curtain Change Tracking: Each curtain has a RFID chip and label which can be used with your hospital's cleaning/tracking software.

Warranty: Two year warranty.

Laundering: Spot clean with a non-bleach cleaner/germicidal. If laundering is required, wash in warm water, not to exceed 160°F. **NO Bleach.** Tumble dry in cool cycle, do not over dry. Do not dry clean or add antibacterial spray.
